

**PANACAST 50 BYOD
(BRING-YOUR-OWN-DEVICE)**

Plug-and-play video conferencing

BYOD AT ITS BEST

Our award-winning Jabra PanaCast 50 has the winning combination of being simple to set up, manage, and use, and being equipped with the latest tech, for top-notch video meetings. Making video conferencing easier all around for everyone.

We have a long history of working closely with Microsoft to develop industry-leading collaboration experiences, which allows us to future-proof our video solutions.

SIMPLE SET UP. INSTANT MEETINGS.

Whichever way you look at it, set up couldn't be easier. Choose from a table stand, wall mount or screen mount, for the right set up for your room. It's easy to assemble, there's minimal cabling, and users simply plug their laptop into the video bar and start their meeting as normal. Simple!

UNIQUE 180° FIELD OF VIEW

With PanaCast 50, you'll never struggle to see who's in the meeting room. Three 13-megapixel cameras create a smooth 180° field of view in Panoramic 4K so everyone in the room can be seen clearly.

You can even put the video bar right up to the wall to make the most of your precious meeting space.

OUTSTANDING AUDIO

As the #1 provider of professional audio solutions, we've used our know-how to integrate outstanding audio capabilities into the video bar with 8 superior microphones and 4 speakers built in. You can enjoy room filling, high-definition audio, with the latest full duplex sound technology enabling people to talk at the same time. After all, video meetings are much better with great sound!

LIKE GETTING YOUR MONEY'S WORTH?

Did you know PanaCast 50 comes with an integrated content camera? This enables easy whiteboard sharing for even more productive meetings or classroom sessions - with no need to splash out on a separate external device.

PANACAST 50

**SCIENTIFICALLY
PROVEN TO
INCREASE MEETING
QUALITY AND
ENGAGEMENT**see Jabra.com/claims**THE INNOVATIONS KEEP COMING**

AI-enabled experiences remove any fears about whether you'll be seen on screen, with intelligent features including auto-framing, speaker tracking, and speaker close-ups ensuring a great meeting experience for everyone.

We continue innovating to respond to evolving meeting needs. That's why we developed the Intelligent Meeting Space feature to help you remove distractions from your glass-walled or open-room meeting places.

We make these new features available to you through Value Packs, our free-to-install firmware updates, to help future-proof your solution for even better value for money.

What's more, we work closely with our technology partners to ensure you get the most from your video platform. That's why the PanaCast 50 enables the latest Teams experiences, including the new Microsoft Co-Pilot enabled features such as Intelligent Meeting Recap.

TRIED & TESTED

Not only is Jabra already a trusted video partner to companies and public sector organizations across the globe, but Microsoft itself has installed PanaCast 50 video bars in its meeting rooms around the world to provide a better hybrid meeting room experience.*

Why not talk to Jabra and see what we can do for you too?

* PanaCast 50 is installed in selected Microsoft offices
