

Why upgrade to the ET80/ET85 Rugged 2-in-1 Tablet

WHAT'S NEW IN THE ET80/ET85?

Your workers have depended on the R12 Rugged Tablet to protect communities, maintain vital infrastructure and keep manufacturing lines going. Now you can give them a rugged device even more tailored to the mission-critical work they perform. The ET80/ET85 offers the large 12-inch display of the R12 — and much more. You get faster wireless connections, a superior docking solution, higher rugged specs, even more features — all in a slim modern design with a true 2-in-1 experience.

True 2-in-1 experience

Go from a tablet to laptop in seconds by attaching the rugged friction hinge keyboard

Latest wireless technology

Faster, more reliable, future-proof connections with support for 5G and WiFi 6E

Superior universal docking solution

Dock it in the office and in vehicles; more connectivity options and better in-vehicle visibility

Designed for more environments

Fanless design ideal for clean rooms; higher IP65 sealing

More features

PowerPrecision+ battery health monitoring, Windows Hello facial recognition and more

Empower your best work with the versatile, rugged 2-in-1 tablet that's built to perform at the highest level, just like you.

What do you get when you upgrade to the ET80/ET85?

FEATURE	R12	ET80/ET85	ET80/ET85 BENEFIT
EASIER TO USE			
Ergonomic design	Magnetic keyboard	Rugged friction hinge keyboard	The ET80/ET85 provides a true "laptop-like" experience; with its rugged friction hinge keyboard, the display can be placed at any angle.
Docking solution	Multiple docks to choose from: Secure Mobile Dock, Industrial Dock and Docking Station	<ul style="list-style-type: none"> • Universal dock: vehicle and desktop • Dock/undock in seconds • Thinner • Up to nine ports • Modular field installable options 	The ET80/ET85 offers a superior docking experience, including: the simplicity of a universal solution, more connectivity options and enhanced in-vehicle visibility and safety.
Display aspect ratio	16:9	3:2	The ET80/ET85's 3:2 display is optimized for viewing information vertically. It's easier to read manuals, web pages and documents — less scrolling is required.
MORE ADVANCED PERFORMANCE			
WiFi	802.11ac	802.11ax R2 (WiFi 6E)	With support for WiFi 6E, the ET80/ET85 offers access to the fastest WiFi available today.
Cellular	4G	4G or 5G	With 5G, the ET85 gives workers access to faster cellular speeds and offers a more future-proof platform.
Processor	6th or 7th Gen Intel Core i5/i7	11th Gen Intel Core i5/i7	The ET80/ET85 provides a generational leap in performance.
READY FOR MORE ENVIRONMENTS			
Fanless thermal design	No	Yes	The fanless design is ideal for manufacturing clean rooms and other particulate-sensitive environments.
Sealing	IP54	IP65 with ports open or closed	The ET80/ET85 is dust-tight and can be hosed off, even if the ports are open.
Rugged specifications	Tested to MIL-STD-810G	Tested to MIL-STD-810H	The ET80/ET85 is tested to the latest MIL standard.
MORE FEATURES			
Rear camera	8 MP	13 MP	The higher resolution camera captures higher quality, more detailed images.
Login/authentication	Fingerprint reader	<ul style="list-style-type: none"> • Windows Hello facial recognition front • Fingerprint reader (optional) 	The ET80/ET85 supports two-factor authentication; workers can log in via facial recognition, instead of stopping to take off their gloves.
Smart battery	No	Yes PowerPrecision+	The ET80/ET85 lets users monitor battery health right on the tablet.
Barcode scanner	Optional, via SlateMate™ add-on module	Optional, integrated Zebra SE4107 scanner	The ET80/ET85's optional barcode scanner is integrated for better ergonomics. The SE4107 and PRZM technology deliver superior performance on challenging barcodes.
