

Powering the modern banking customer experience

The rapidly evolving banking sector demands technology with computing performance and design flexibility to power a variety of different customer experiences. It also requires reliable and secure devices with long service lives to operate in busy retail banking environments. Explore HP Engage solutions, configurable to suit your unique needs with powerful processors, advanced security features, long lifecycles, and more.

Transform the customer experience

Upgrade to stylish and sleek devices designed to power modern customer engagement in areas such as mobile banking, self-service, education, and staff training.

Futureproof your investment

Stay stress-free with durable devices that carry up to a 10-year manufacturing and service lifecycle¹—enabling you to focus on what matters most.

Keep your data and devices secure

Benefit from HP's industry-leading security solutions including BIOS-level protection, multi-factor authentication, and device lockdown options².

Boost productivity and business growth

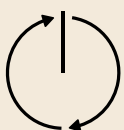

Customize your device and improve operational efficiency with devices that offer long lifecycles, powerful processors, and multiple deployment options.

HP Engage – Built to Last

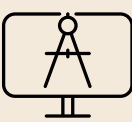

Disinfectable and EMI compliance

Designed and tested to withstand up to 10,000 wipes with select germicidal towelettes³; certified to meet EN/IEC 60601-1-2 standards⁴ to prevent electromagnetic interference with other devices.

Materials and components

HP Engage long lifecycle computers utilize materials like steel chassis and gold-plated connectors, high endurance capacitors, and power supplies that can withstand extended use periods and extreme temperatures.

Design and manufacture

Meet the demands of challenging environments with devices built to be rugged as well as energy-efficient with overall chassis stability, thermal tolerance, airflow, dust, and spill resistance.

Tested for durability

HP Engage devices are designed to operate and tested⁵ to perform in demanding environments with extended use hours.
