

SPEAK SERIES

Sound solutions for meeting spaces

SPEAK SERIES

Engineered to make conference calls easy & collaboration simple

Superb sound quality and intuitive interface

Need office speakerphones for crystal-clear communication in your client meetings and catch-ups? The feature-filled Jabra Speak series makes conference calls easy with intuitive interfaces, multiple connectivity options such as Bluetooth and superb sound quality.

The right speakerphone for you

Whether you need a central speakerphone for your office boardroom or a portable device that's perfect for travelling with you on sales pitches, Jabra has the right speakerphone for you.

Key selling benefits of the Speak Series

- Hear and be heard in crystal clear clarity – saving time on calls for quick decision making
- Let customers start conference calls on time, every time with a set-up time of seconds to their preferred device
- Turn any space into a meeting room whether at home, in a hotel, or at your desk
- Pair two devices* together for a full stereo experience and for conference calls up to 12 people

Who is the Speak Series ideal for?

- Companies that embrace new ways of working such as allowing remote working, more team collaboration and open plan offices offer employees the flexibility to choose the right technology to suit their working needs
- Companies struggling with UC adoption and needing to get end users confident with plug-and-play devices compatible with Microsoft Teams, Skype for Business and other leading UC platforms
- Companies wanting high-end quality sound for conference calls and/or music in a professional device

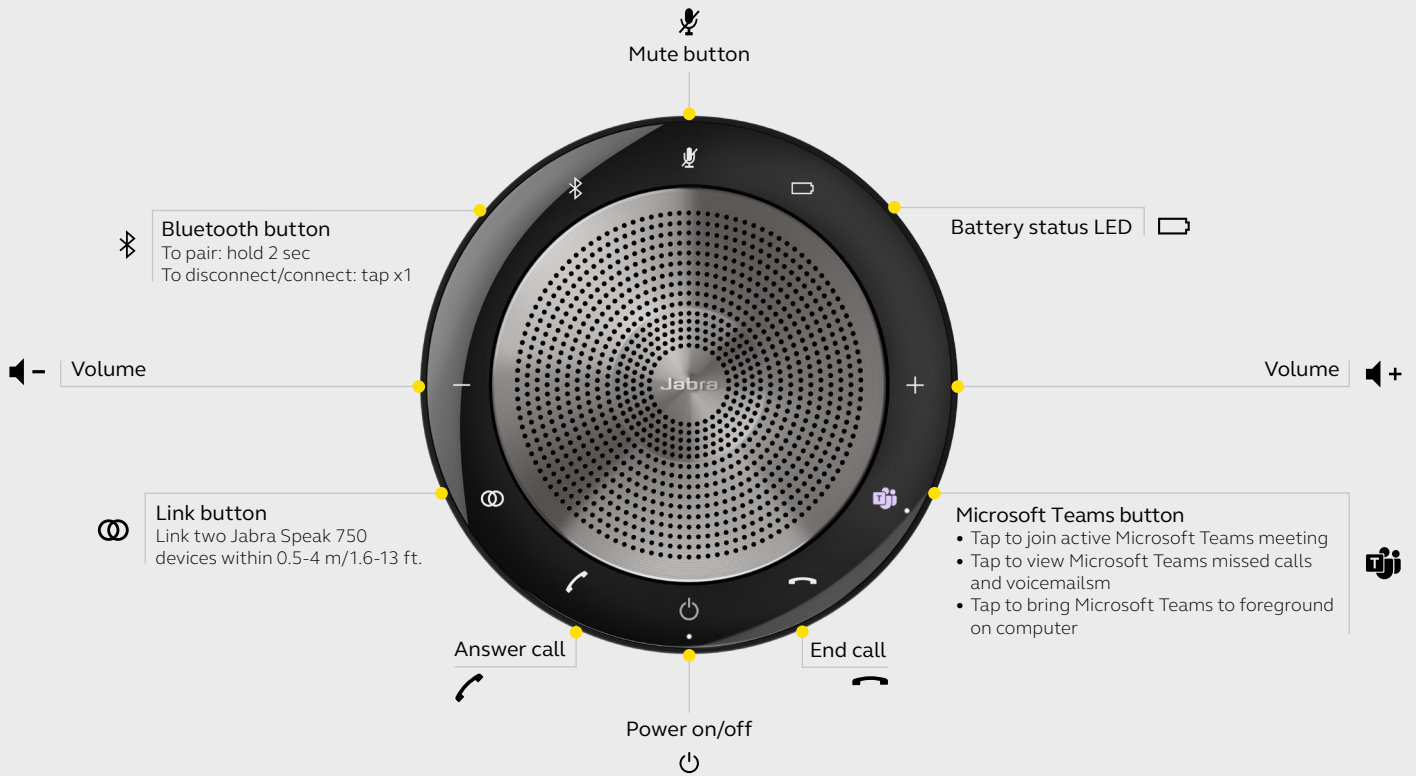

* Applies to Speak 710 and Speak 750 only.
Speak 710 devices can't be paired with Speak 750 devices.

NEW – SPEAK 750
