WHO WE ARE ▶▶▶

FOUNDED IN 2000, PAX TECHNOLOGY IS A LEADING GLOBAL PROVIDER OF ELECTRONIC PAYMENT SOLUTIONS THAT ENABLE INNOVATION AND DRIVE BUSINESS GROWTH.

PAX DIFFERENTIATORS ▶▶▶

EXTENSIVE PRODUCT LINES
We provide a diverse range of payment options for various use cases, including point-of-sale (POS), payment terminals, and software solutions.

EASY CERTIFICATIONS
Built around a common kernel, we certify your payment devices across multiple payment terminal platforms, which streamlines business processes and enables faster time-to-market.

INTEGRATION
Our expertise lies in semi-integration technology which communicates directly with the payment processors, and we also offer fully integrated payment terminals that work seamlessly with your POS systems.

PAYMENT AGNOSTIC
We support multiple payment processors, so you are in control of your payment methods.

REMOTE KEY INJECTION
Securely inject encrypted data remotely, eliminating the need to ship terminals to a secure certified third party for key injection.

REMOTE ASSISTANCE
Provide remote assistance with AirViewer. Remote access anytime, anywhere with options to view or take control of the device.

PAXSTORE ▶▶▶

MORE CONTROL AT YOUR FINGERTIPS
Remotely manage devices, software, and third-party business applications.

COMPREHENSIVE DEVICE MANAGEMENT
Customize and enhance your entire payment experience with more than 2,200 Android-based apps and payment solutions.

A VARIETY OF BUSINESS APPLICATIONS
Whether you're a marketplace owner, an estate manager, an app developer, or a merchant – PAXSTORE's ecosystem of payment solutions is sure to deliver. From customizing your POS system to mitigating risks, with more than 2,200 apps, you're sure to find one that fits the bill.
