MANUFACTURING

Exposed to solvents and chemicals, subjected to temperature extremes or applied to textured and irregular surfaces – perhaps even all of the above - labels used in manufacturing applications must perform in the most demanding of environments.

With a wide range of available facestocks and adhesives, Printronix Auto ID can provide the correct label construction for your particular manufacturing operation.

Whether you are labeling a printed circuit board, identifying plastic components or job-tracking metal fasteners, by using Genuine Printronix Supplies you can feel confident that your product will be properly identified and tracked from WIP to shelf.

Through the optimized combination of your Printronix Auto ID printer and Printronix Genuine Supplies, you will enhance your efficiency and enjoy a "no-worry" printing solution.

Applications for Printronix Supplies

• Durable labels for extreme environment applications
• Product labeling
• Work in process labeling
• Parts inventory management
• Compliance labeling
